

23 January 2014

HFTC Team welcomes newest staff member

The HealthFusion Team has welcomed a new face to the team this year, with Stephanie Castaneda (nee Dunn) coming on board as Project Manager from January 23.

Stephanie takes over the position from Jane Furnas, who is returning to studies in 2014. Jane remains as a part-time Project Officer on the HFTC Team while she completes her Masters in Occupational Therapy.

Stephanie is no stranger to the HFTC project, having worked closely with various members of the Team in her previous role as Marketing, Communications and Events Coordinator for the University of Queensland's School of Pharmacy, which played host to the Oz HFTC in 2012 at the Pharmacy Australia Centre of Excellence, Woolloongabba.

Prior to her six year stint with the University of Queensland, Stephanie was trained as a Pharmacy Dispensary Technician, working in the Oncology area of the Mater Hospital's Pharmacy Department, and later at the Princess Alexandra Hospital Pharmacy Department.

Stephanie began her career as a Dispensary Technician in community pharmacy, where she worked in the regional New South Wales city of Lismore, then in the eastern suburbs of Melbourne, before returning to live and work in Brisbane in 2002.

Stephanie will be based at the QUT Gardens Point Campus..
